Prioritize from the list below by ranking uses from 1 to 6 (1 being the highest priority):

	1	2	3	4	5	6	Ranking
Amenity space:	43	7	23	8	3	1	1
Hotel:	1	6	4	6	15	41	6

Based on above, the highest priority uses were for amenity space, marine services and technology. The lowest priority uses was for office and hotel.

Other comments provided were related to:

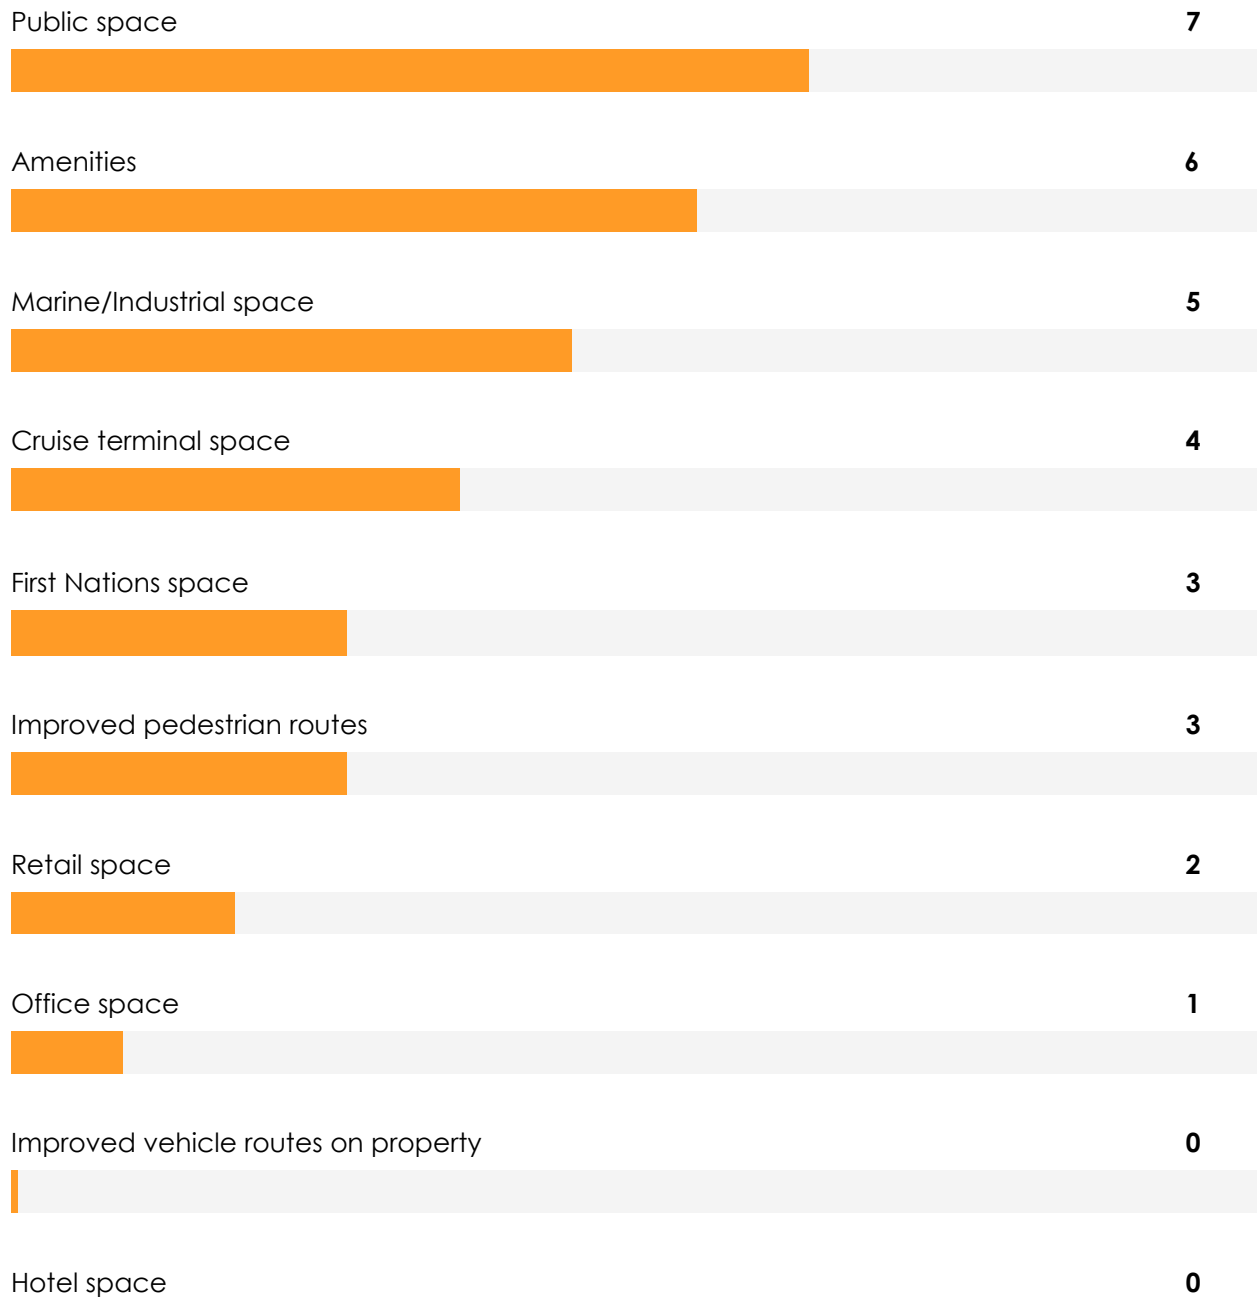

- Parking, access, vehicle, bicycle and foot traffic need to be carefully considered in the final functional plan.
- Growing and enhancing various cultural aspects in this plan was very supported from First Nations, from marine uses to the arts.
- Go big and bold, truly make it the gateway to the community, city and country, and maximize the return from the land.
- Provide services to the local residents as well as the cruise ship visitors.

Any additional items we may have missed?

- Access into the water is important.
- Cultural spaces and a way to combine them in the natural environment would be interesting and a benefit to the area.
- Transportation of all modalities to and from Ogden Pt. should be a focal point.

The questions and results to assist us in planning and promoting future OPMP events are below.
